CHAPTER 1 : INTRODUCTION TO WEB ENVIRONMENT (CLO1, PLO3)

Storyboarding is an easy way to see what information goes on which page and how that page will flow with the other pages on the site. It will also allow you to see how the site navigation needs to be set up and avoid you having to redo the menus or content on multiple pages.

1. By using the appropriate template, create a storyboard for food festival web page. Your website must contain four (4) pages as follows:

- a. Home
- b. Registration
- c. Food Vendors
- d. Contact Us
