

**WEB DESIGN TECHNOLOGY (DFT40163)**  
**TOPIC 2 : HTML**

## **Lab Activity 2**

**Instruction:** Add the following criteria into your lab activity 1.

### **1. Table:**

You can create a table to display relevant student information, such as personal details, course information, or other related content.

#### **Explanation:**

- **Table with 5 rows and 4 columns:** Includes header and data rows.
- **Use of <th> for headings.**
- **Apply colspan and rowspan.**
- **Coloring:** Background color applied to the table header and some rows for better visibility.

### **2. iFrame:**

You can insert Google Map in **Contact Us** section and insert Youtube Video about yourself in profile section.

#### **Explanation:**

- **Google Map:** The iframe includes a Google Map embed URL. Replace the URL with the location of your business or personal address.
- **YouTube Video:** Replace your\_video\_id with the specific YouTube video ID for your video.
