梦
dream

My Basketball Journey

Basketball was the first sport I ever played. When the ball drops successfully into the basket, it brings a great sense of pride. If you are also a basketball player, you'll know exactly how that feels. Basketball has taught me a lot—leadership, teamwork, discipline, confidence, and more. Because of my passion, my personal skills are better than many of my peers. This has given me many opportunities to join games and tournaments.
I love basketball.

Pingpong Time

Pingpong is out family sport. I contecnt with this sport all couse of my family. All of my family members know how to play it. I very enjoy the family time. But becoming older the count of play was decrease. But I still love it, I hope still have chance to at Feuture University.

Reading is a Lifetyle

I love physical book. Thus, this is the primary reason I read. Moreover, the another significant reason is I love the quiet enviroment. Library, an empty classes will always saw my shadow. Someone said: **"Reading will lead you to farther and heighter."** and my dream is to explore the various world. Therefore, reading become my Livestyle, not just a hobby.

Chess-The only ONE

A chess board, two player and chess piceses. I love to think deep, so chess become the game that can gather all my focus and though. Thinking the steps and strategy is the surface of the chess. I learn a lot from play chess, how to decide the next step, avoid misstake and more. Chess is not a game, it lead out the strategy to step in daily life. Golden quotes of chess:
"Two King enter, One King left."

Cooking

I learn cook is to avoid hungry. But you will always be proud of the food you done by your own. Learn to be healty is always the though before I start to cook. Becouse want to be more healty, I will avoid to have the fast food or instant noodles. Not only cooking meal, baking also in my favotite. I enjoy to create and cook my healty meal.

Family

This is my family members. Yup, the picture as you see, my family just only 4 members including me. You may think it will be very boring right, instead it's not. We know each others very well, plus we lead our hand to help each others faced their problems. It's very easy to heard the laughing sound between us.

I am very proud and feel warmth that I am one of the family members.

Sister

Parent

Sister

This, is my young sister. A very sportive person. In shool she played, basketball, pingpong, handball, volyball, track and field and more. This year is ready been cooked by SPM, hahaha. GOOD LUCK.

When we are outdoor, she is a introvert, but when she is in home the hold 'TAMAN' will heard her voice. Sometime we fighting for no reason, but amity soon. Our relationship are good enough compare then others family bloodline.

Parent

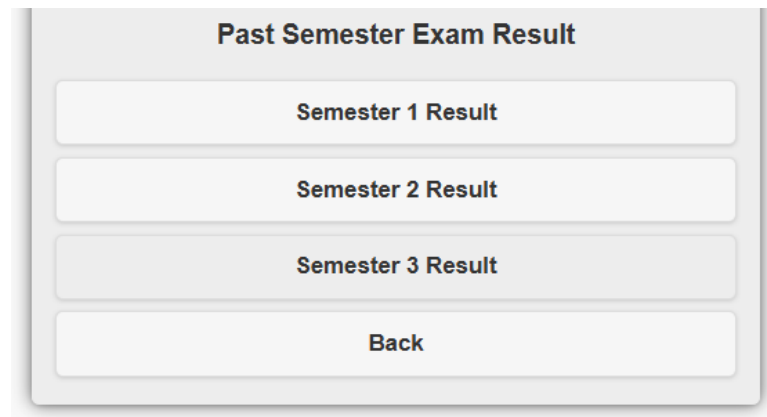

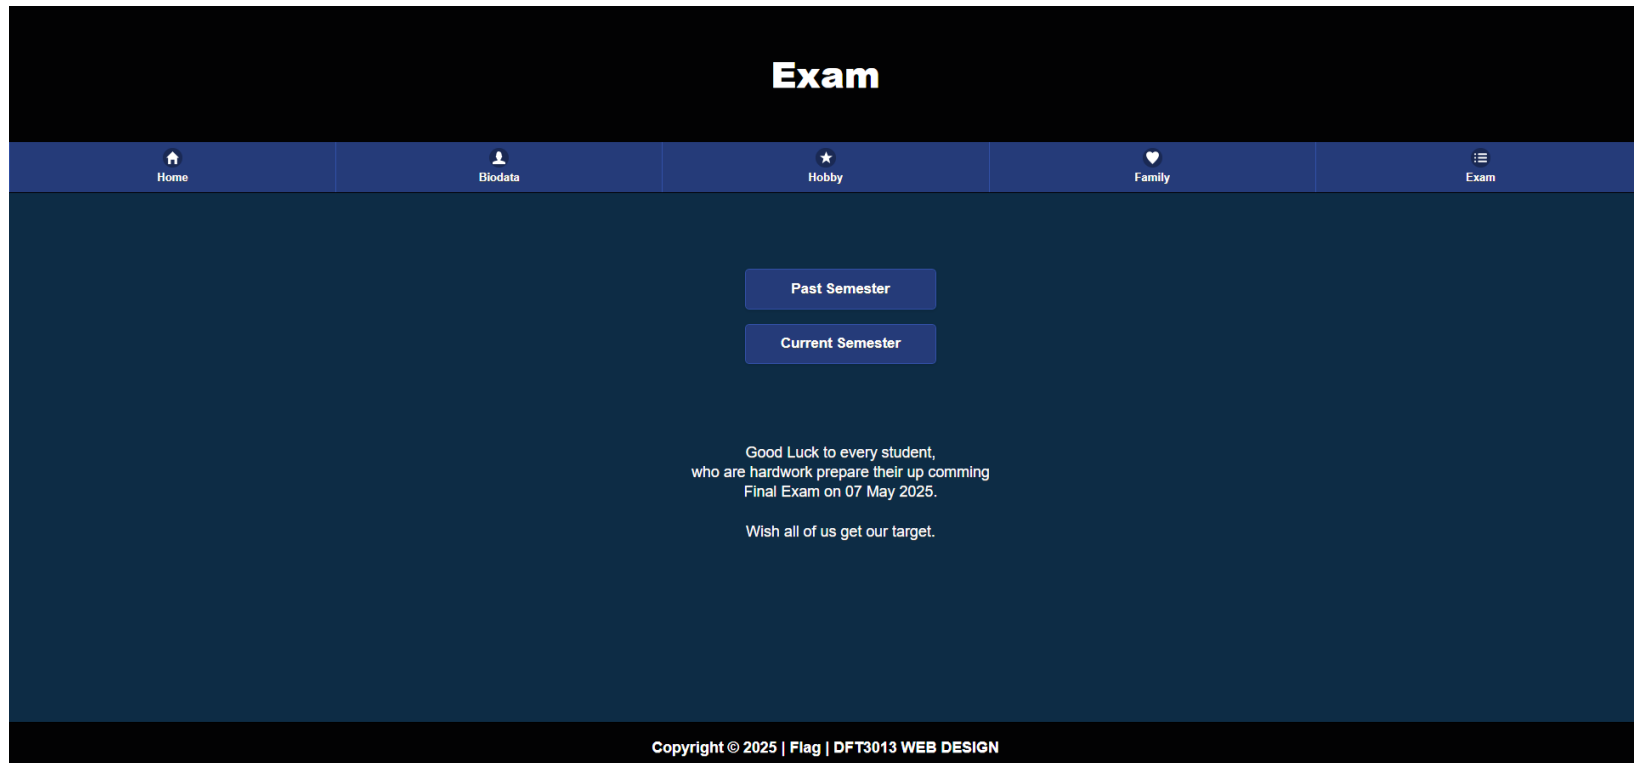

My mom is a housewife. She handle all house staff. Additionlly, she is a MasterChef. She really good in cooking and baking. That why cooking and baking be the one of my hobby.

My dad is a constructor. Also, every income are create by him. My dad had a serious face, all my friend scare to talk with him. But he are profesional to create a marmony enviroment. I call him a emotion controler.
